EDUCATION

MIET College, Meerut Bachelor of Technology (B.Tech)	2023 – 2027
Police Modern School, Meerut Class XII	2023

TECHNICAL SKILLS

Languages: C++, JavaScript, SQL, HTML, CSS

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Framer Motion, Responsive Design

Backend: Node.js, Express.js, REST APIs

Database: MongoDB

Cloud / AWS: EC2, S3, EBS, RDS, IAM, Lambda, Basic Cloud Deployment

Tools: Git, GitHub, VS Code, Postman, Docker, Redis, Vite

Core CS: Data Structures & Algorithms, Object-Oriented Programming (OOP), Problem Solving

PROJECTS

Uber Clone (MERN Stack) GitHub |

- Built a full-stack ride-booking platform using MongoDB, Express.js, React.js, and Node.js.
- Implemented secure authentication, ride management workflows, dynamic routing, and RESTful APIs.
- Developed responsive dashboards and reusable React components for better maintainability.
- Designed scalable backend services with secure data handling and optimized API performance.

Real-Time Chat Application (Messagify) GitHub |

- Developed a real-time messaging platform using the MERN stack and Socket.io.
- Enabled instant bidirectional communication using WebSocket connections.
- Implemented user authentication, persistent chat history, and responsive UI.
- Built scalable backend APIs for seamless communication between users.

Coders Cafe – Animated React Website GitHub | Live Demo

- Built an animated website using React.js, Tailwind CSS, Vite, and Framer Motion.
- Added smooth entrance, scroll-triggered, and hover animations for an engaging user experience.
- Developed reusable responsive React components following a modern UI architecture.
- Optimized frontend performance with lightweight animations and clean component design.

ACHIEVEMENTS

- Solved **340+** Data Structures and Algorithms problems on LeetCode using C++.
- Strong understanding of arrays, linked lists, stacks, queues, trees, graphs, recursion, and dynamic programming.
- Continuously building scalable MERN applications while exploring modern cloud and frontend technologies.

PROFILE

Full Stack MERN Developer passionate about building scalable web applications and modern user interfaces. Experienced in React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Framer Motion, and AWS services including EC2, S3, EBS, RDS, IAM, and Lambda. Strong problem-solving skills with a solid foundation in Data Structures & Algorithms. Focused on writing clean, maintainable code and developing responsive, production-ready applications.
